

International Journal of Chemical Engineering and Applications

CONTENTS

Volume 5, Number 4, August 2014

- The Rate of Metabolism and Performance of Broiler Who Gets Skin Treatment Rations Containing Cassava Flour and Injection Solution Thyroid Gland.....287
Yuanita Windusari, Meisji Liana Sari, Sofia Sandi S., and Agus Budiyanasyah
- Reactive Absorption of CO₂ into Aqueous Mixtures of Methyl-diethanolamine and Diethanolamine.....291
Abdelbaki Benamor and Mohammed Jaber Al-Marri
- Synthesis of Anion-Exchange Materials from Concrete Sludge and Evaluation of Their Ability to Remove Harmful Anions (Borate, Fluoride, and Chromate)298
T. Hongo, Y. Tsunashima, A. Iizuka, and A. Yamasaki
- Influence of Temperature on Gamma-Oryzanol Stability of Edible Rice Bran Oil during Heating.....303
A. Srisaipet and M. Nuddagul
- Characteristics Morphology Female Reproductive System Pegagan Ducks.....307
Meisji Liana Sari, R. R. Noor, Peni S. Hardjosworo, and Chairun Nisa
- State of the Art Hollow Fiber Supported Liquid Membrane on Pd(II) Separation from Wastewater Using Alamine 336.....311
Kraiwith Wongkaew, Natchanun Leepipatpiboon, and Ura Pancharoen
- Effect of Membrane Materials on Transport Kinetics of Cu(II) through Bulk Liquid Membrane.....315
Siu Hua Chang, Ayub Md Som, and Jagannathan Krishnan
- The Role Formation of Methylglyoxal, Carbonyl Compound, Hydrogen Peroxide and Advance Oxidation Protein Product Induced Cadmium in Ovarian Rat.....319
A. H. Husna, E. A. Ramadhani, Eva D. T., A. F. Yulita, and E. Suhartono
- Influence of the Natural Medium on the Hydrocarbons and Fatty Acids Producing from the Microalgae *Batryococcus braunii*.....324
Gaukhar K. Bishimbayeva, Adilzhan K. Adamgaliyev, and Sandugash K. Kazybekova
- Boiling Point Estimation Program Especially for Aromatic Compounds Supplementing Joback Method..... 331
Shin Hyo Bang, Seung Jae Lim, and Taeseon Yoon
- Advanced Control Strategy for Wastewater Treatment Process: A Parametric Study.....335
Muhammad Rizwan Azhar and Emadadeen Ali
- CO₂ Capture Using Silica and Molecular Sieve Impregnated with [hmim][Tf₂N]342
Md. Nurul Safiah, Bustam M. Azmi, and M. Yunus Normawati
- Prediction of Vapor-Liquid Equilibrium of Polypropylene Oxide Solution Systems by Cubic Equations of State347

Hajir Karimi, Mahmood Reza Rahimi, and Ebrahim Ahmadloo

Modeling Analysis of Corrosion Behavior of Carbon Steel in CO ₂ Loaded Amine Solutions.....	353
<i>Abdelbaki Benamor and Mohammed Jaber Al-Marri</i>	
Pore Wetting and Its Effect on Breakthrough Pressure in Water-Wet and Oil-Wet Pores.....	359
<i>Xingxun Li and Xianfeng Fan</i>
