

International Journal of Chemical Engineering and Applications

CONTENTS

Volume 10, Number 2, April 2019

- Investigation of Some Physical Properties of Cobalt Doped MoO₃ Nanofilms and Their Effects on the Degradation of the Methylene Blue Solution under UV Illumination.....33
N. Benameur, A. Boukhachem, M. Ghamnia, M. A. Chakhoum, M. A. Dahamni, and C. Fauquet
- Removal of Reactive Dye Using Solvent Impregnated Resin40
Anjali Awasthi, Sakshi Batra, and Dipaloy Datta
- Preliminary Study of Anaerobic Digestion Improvement by Bacterial Immobilization Media from Activated Carbon and Natural Zeolite46
Chandra W. Purnomo, Dita P. Sari, Yanisa Laoong-u-thai, and Respati T. Swasono
- Development of A Thermodynamically-Consistent Alpha Function for the Patel-Teja-Valderrama Equation of State50
Allan Paolo L. Almajose and Maria Lourdes P. Dalida
- Enhanced Photocatalytic Activity of Carbon Dots Grafted TiO₂ Nanorods56
Shimin Cai
- The Effects of Cationization on Dyeing Properties of Cotton Fabric Dyed with Marigold and Rose.....60
Matrikan Nutchawanit, Chutimon Satirapipathkul, and Rattanaphol Mongkholrattanasit
