

International Journal of Chemical Engineering and Applications

CONTENTS

Volume 10, Number 3, June 2019

- Development of Food Waste Disposal Technology Using Sodium Hydroxide64
M. Nakayasu and T. Wajima
- Synthesis and Characterization of Molecularly Imprinted Polymer for Prasugrel Drug Base on 2-Hydroxyethyl Methacrylate Monomer in Biological and Pharmaceutical Samples69
Maryam Pyambri Pramani
- A New Recycling Process of Waste Glass Wool Using Pyrolysis with Sodium Hydroxide75
T. Wajima and S. Matsuka
- Production of Ethanol by *Zymomonas Mobilis* Mutant : The Effects of Sodium Acetate at pH 5 and No Control pH80
Puspa Puspita, Hsieh Chia-Wen, and Chang Yao-Sheng
- Removal of Bisphenol-A from Aqueous Solution Using Polymeric Resin Impregnated with Phosphorous Based Extractant87
Sakshi Batra and Dipaloy Datta
- Bio-Naphtha as Alternative for Olefins Feedstock in Indonesia.....92
Candra Lutfi Widikrama and Indah Dwi Rachmawati
