

International Journal of Chemical Engineering and Applications

CONTENTS

Volume 10, Number 6, December 2019

- **Chemical Safety and Engineering**

Near-infrared Shielding and Far-infrared Emission Textiles Coated by Self-assembly $\text{Cs}_{0.32}\text{WO}_3$ Nanosheets 168

Linghui Peng, Weifan Chen, Aibing Yu, and Xuchuan Jiang

Study on the Influence of Magnetic Metal Materials on Inhibit Gas Explosion..... 175

Shang-Yong Zhou, Shou-Tao Hu, Jian-Cun Gao, Le Wang, and Xu Sun

Study on Oxidation and Self-ignition of Ferrous Sulfide Based on the Thermo-gravimetry Experiments 180

Sisi Liu, Jing Shen, Haoyuan Dai, and Jiancun Gao

- **Energy and Environmental Engineering**

Alkali Fusion of Waste Perlite Dust to Synthesize Faujasite Zeolite Using a Rotary Kiln..... 184

T. Wajima and S. Onishi

Formate Cycle: The Third Way in Green Energy 189

M. Gotovsky, A. Gotovsky, V. Mikhailov, V. Lychakov, Y. Sukhorukov, and E. Sukhorukova

- **Computer Engineering and Application**

Control Valve Stiction: Experimentation, Modeling, Model Validation and Detection with Convolution Neural Network 195

Napoli R. Vazquez, Dan P. Fernandes, and Daniel H. Chen

Simulation of Dual Site-Bond Network Modeling for Porous Media through the Graphics Class in Java 200

Benjamin Moreno-Montiel, Carlos-Hiram Moreno-Montiel, Jacqueline Luna-Sánchez, and René MacKinney-Romero
