

International Journal of Chemical Engineering and Applications

CONTENTS

Volume 8, Number 4, August 2017

• Catalyst and Catalytic Reaction Engineering

Development of Ce/La_{0.25}Sr_{0.75}Cr_{0.5}Mn_{0.5}O₃ Anode Catalyst for Further Application in Solid Oxide Fuel Cell Typed Reactor.....237
W. Appamana

Photocatalytic Hydrogen Production from Seawater Using Cd_xZn_{1-x}S.....242
Estelle Diane D. Jose, Ernest Nathan L. Nogales, Ann Elizabeth P. Rollon, Joseph Yap IV, and Rizalinda L. de Leon

The Influence of Propan-1-Ol on Performance of Alumina-Silica Catalyst over Ethanol Dehydration.....248
Sasiradee Jantasee, Prajak Kanya, Wasuwat Ngoksilapa, and Bunjerd Jongsomjit

• Fluid Engineering

Generation and Transport of Solid Particle Clusters Using a Vortex Ring Launched into Water.....253
Tomomi Uchiyama, Chiaki Yano, and Tomohiro Degawa

Novel PAM Complex as Rheology Modifier and Fluid Loss Controller for Montmorillonite Fluid261
Rakshith R. Shettigar, Nirendra M. Misra, and Khushbu Patel

• Applied Chemistry and Chemical Technology

Design and Control of an Integrated Toluene-Aniline Production Plant a Preliminary Study267
Ahtesham Javaid and Costin S. Bildea

Preparation of Carbonaceous Heavy Metal Adsorbent from Cedar Bark Using Sulfur-Impregnation.....272
Takaaki Wajima

Adsorption for Dyes on Activation Carbons from Japanese Cedar Wood Prepared by Precarbonization and Two-stage Composite Activations with Wood Ash and Steam.....277
Chia-Wen Peng and Han Chien Lin

Process Optimization on Chitinase Production by Locally Isolated *Enterobacter* sp. and *Zymomonas* sp.286
Lisa G. A. Ong, Hoi Khei Lam, Mei Yin Lim, and Tian Xiang Tan

• Analytical Chemistry

Schiff Base Dinuclear Zn(II) Complexes as Assisting Fluorescent Probe for CD19 Antibody Protein290
Sae Yasuda, Masahiro Takase, Atsuko Sano, and Takashiro Akitsu

Rapid Semi-Quantitative Analysis of Formaldehyde in Food by Digital Image Colorimetry294
Jinda Rungroadsri, Wadcharawadee Limsakul, Worawit Wongniramaikul, and Aree Choodum

• Metals and Alloys

Effect of Extrusion Temperature on Microstructure and Biodegradation Behavior of Mg-5Zn-1Y-1Ca Alloy.....299

H. Jafari and F. Doost Mohammadi
