

International Journal of Chemical Engineering and Applications

CONTENTS

Volume 9, Number 1, February 2018

- Yield Stress of Alcoflood and Xanthan Polymers Solutions and Their Emulsions with Crude Oil.....1
Mamdouh T. Ghannam, Mohamed Y. E. Selim, Abdulrazag Y. Zekri, and Nabil Esmail
- Abnormal Situation Management: Detection of Fouling and Longitudinal Bypass in Heat Exchangers 9
William P. Swan, Dan P. Fernandes, Aniket Khade, and Daniel H. Chen
- Influence of the Sample Volume upon Injection on Capillary Gel Electrophoresis for the Separation of Small DNA
Fragments.....16
Tomoka Nakazumi and Yusuke Hara
- Theoretical and Experimental Studies on Extraction of Carboxylic Acids from Aqueous Solution Using Ionic
Liquids.....20
Shitanshu Pandey, Neha Chomal, Suantak Kamsonlian, and Sushil Kumar
- Local Corrosion of Martensitic Stainless Steels during Exposure to Saline Aquifer Water and CO₂ Environment..... 26
Anja Pfennig and Axel Kranzmann
- Multi-stage Microwave-assisted Transesterification of Soybean Oil – An Economic Design for High Yield Biodiesel
Production 32
Chien-Hsiu Hung, Ying Ming Chew, Yi-Chung Fu, and Chin-Shuh Chen
