

International Journal of Chemical Engineering and Applications

CONTENTS

Volume 9, Number 4, August 2018

- Modelling and Simulation of Hydrogen Production via Water Gas Shift Membrane Reactor 112
Aya Abdel-Hamid I. Mourad, Nayef Mohamed Ghasem, and Abdulrahman Yaqoub Alraeesi
- Destruction of Polychlorinated Biphenyls under Subcritical Water Conditions in the Presence of Hydrogen Peroxide
or Sodium Hydroxide 119
Ninad Doctor and Yu Yang
- The Green Engineering Implications of the Replacement and Recovery of Dipolar Aprotic Solvents in Industrial
Manufacturing..... 123
Mariano J. Savelski, C. Stewart Slater, and Christian M. Wisniewski
- Desalination Properties of a Natural Zeolite and Calcined Hydrotalcite Mixture in Seawater..... 128
Takaaki Wajima
- Investigation of the Corrosion Behaviour of Welded Area of Austenitic Stainless Steels under Stress 135
Yehia Youssef, Walaa El Bestawy, Mootaz Ghazy, Mohamed Shehadeh, and Ibrahim Hassan
- Chromatographic Analysis of Vitamin B1, B2, B6 and Folic Acid in Multivitamin Pharmaceutical Dosages Available
in Local Market..... 139
Syeda Kiran Shahzadi, Muhammad Abdul Qadir, and Adil Munir
- Rice Husk Extracts Ability to Reduce the Corrosion Rate of Mild Steel 143
M. Pramudita, Sukirno, and M Nasikin
- Investigation of the Processing of Libyan Crude Oil Residues into Carbon Fibres 147
Alhadi A. Elakrimi and Abdurazag A. Shebli
